

Together,
let's inspire well-being.

Bring your flavor.

Join our team and bring your best self to the table. Enjoy an innovative and progressive environment where changes to law and scope of practice are immediately adopted and implemented with meaningful training.

Our pharmacists are able to ensure patients have access to the care they want while practicing at the top of their license.

We are  **Albertsons[®]**
Companies

WHO WE ARE

We see our community pharmacies as a meaningful way to **connect with people** and help them achieve their health and wellness goals.

With over **1,700 pharmacies** nationwide, our ever-expanding clinical services reflect our commitment to providing an environment for our pharmacists to positively impact patients and grow professionally.

Our pharmacists do more than just counsel on the proper use of medications. We provide personalized service to our patients. Whether it's teaching a patient how to test blood sugar levels or providing an annual comprehensive medication review, our pharmacists are **compassionate, caring, and attentive.**

INDUSTRY LEADING ——— Partners in Care ———

Our pharmacists have a longstanding tradition of being on the leading edge of clinical services, whether it is diabetes care, immunizations, or Medication Therapy Management. As both medication experts and highly visible community healthcare providers, our pharmacists have tremendous opportunity to build relationships and provide patient-centered care to ensure safe and effective medication use, promote adherence, and offer self-care triage and advice. Our pharmacists are well positioned as **trusted and compassionate healthcare partners** who are truly there for their patients.

We have created an **integrated patient care program** providing personalized services to individuals requiring specialty medications.

Delivered by our best-in-class pharmacists and a dedicated Specialty Care support team, our industry-leading specialty services are setting **new standards in patient care**.

We provide services for those with complex conditions including behavioral health, migraine, hepatitis C, HIV, immunology, multiple sclerosis, oncology, substance abuse recovery, inflammatory conditions, and other therapeutic categories requiring specialty care coordination.

PHARMACY Summer Intern Program

PROGRAM OBJECTIVES

- ✓ Develop patient care and pharmacy counseling skills
- ✓ Observe and participate in the administration and management of a community pharmacy
- ✓ Understand the complexities and significance of pharmacy compliance and managed care
- ✓ Refine communication skills to assure appropriate and effective interactions with our patients and Pharmacy Team
- ✓ Establish the foundation for success in future pharmacy endeavors

Program Overview

The goal of the 7-week Albertsons Companies Pharmacy Summer Intern Program is to expose student pharmacists to **community-based pharmacy practice** and give them an understanding of our company and the profession.

Our preceptors are passionate about developing the professional, operational, and leadership skills of our interns.

With our award-winning clinical services, interns are afforded the opportunity to positively impact the lives of the patients we serve.

Bring your flavor.™

Join our team and bring your best self to the table.

WHAT ARE WE LOOKING FOR?

Enthusiastic interns passionate about community pharmacy practice, clinical services, and helping patients achieve their wellness objectives.

WHAT WILL I BE DOING?

During the **first week**, interns will participate in an orientation to the company and computer systems.

Interns will spend about **4 days/week** in their community pharmacy working on structured projects, activities, and services including:

Patient Centered Care

Disease Management Services
Medication Therapy Management
Health Screenings*
Immunizations

Pharmacy Operations

Workflow Management
Pharmacy financials
Compliance
Management skills
Team dynamics

*Where allowed by state law.

Interns will spend **one day a week** in an out-of-store meeting with a dedicated summer intern trainer for discussions, presentations, and meetings with pharmacy leadership.

Major projects include OTC presentations, hot topic discussions, DUR presentations, and a major project focused on improving patient care services at their home-based pharmacy.

Our program is offered in some rural and most major metropolitan markets throughout the U.S.

PHARMACY Business Management Summer Internship

Program Overview

The goal of the Pharmacy Business Management Internship is to expose interns to the **roles and responsibilities of a pharmacy manager**, and to develop their working knowledge of pharmacy operations and patient care services.

Our highly-talented interns work alongside their preceptors during this 7-week program to develop management and leadership skills, and work on projects that positively impact the lives of our patients.

Bring your flavor.

Join our team and bring your best self to the table.

WHAT ARE WE LOOKING FOR?

Enthusiastic interns passionate about community pharmacy practice, clinical services, and helping patients achieve their wellness objectives.

WHAT WILL I BE DOING?

- ▶ Attend weekly meetings facilitated by a dedicated Pharmacy Business Management Summer Intern Program trainer.

- ▶ Participate in patient care services and initiatives.
- ▶ Shadow and complete store visits with Pharmacy Managers, Store Directors, Patient Care Pharmacists, Division Pharmacy Managers, Directors of Pharmacy Operations, and Field Evaluators.

- ▶ Complete a major project, consisting of developing a SWOT analysis, implement and evaluate an intervention to improve pharmacy operations.
- ▶ Participate in community outreach events, presentations, and meetings.

"This internship effectively elevated my clinical proficiency and confidence in patient counseling and education, medication therapy management, and disease management. I gained practical, hands-on experience in strategic pharmacy management and networked with Albertson's exceptional team leaders."

- Vicky (Viktorija) Buntinas,
2nd Year Professional Student, Purdue University

HOW ARE PRECEPTORS SELECTED?

Our preceptors and practice sites are selected based upon their track record for providing unparalleled intern experiences, opportunities to participate in clinical services, and operational excellence.

PROGRAM OBJECTIVES

- ✓ Become familiar with the roles and responsibilities of a pharmacy manager
- ✓ Develop relationships with, and understand the roles of individuals within the business
- ✓ Create a business plan and develop techniques for driving business success
- ✓ Observe and implement managerial styles and techniques
- ✓ Understand how to project and react to financial results
- ✓ Gain experience with presenting in various settings
- ✓ Obtain insight into the variety of career opportunities with Albertsons Companies.
