Walmart Inc. is an Equal Opportunity Employer – By Choice.

Transforming health together.

From our humble beginnings as a small discount retailer, Walmart has opened thousands of stores in the U.S. and expanded internationally. In addition, Walmart's new health centers reinforce our commitment to integrated, omnichannel health delivery that leverages technology to improve health equity and outcomes. These state-of-the-art Walmart Health locations provide affordable and accessible healthcare for members of the community so they can get the right care at the right time, right in their community. Join our Pharmacy team and have a real impact on increasing access to care in our communities.

Are you ready to get started?
Let's go!

"My job is not just helping people to feel better, but to live better."

Leigh Ann, Pharmacist

Affordable and accessible. Superior patient care.

Our emphasis on driving value means you'll be delivering superior patient care and making a real difference in your community. Over the past two years, Walmart has created many useful tools that have made vaccination information and appointments broadly accessible to all communities, including those that are underserved and particularly vulnerable. Walmart also offers the most affordable plans on crucial medications with \$4 and \$10 prescription options from every major therapeutic category, including the management of diabetes, hypertension, smoking cessation, hypercholesterolemia, and many more. Whether our patients have questions about vaccines, prescriptions, OTC medications, or vitamins, our Pharmacists are passionate about making themselves accessible. Walmart Pharmacies also offer immunization services and Medical Therapy Management as part of a broader emphasis on preventative care.

"The work we do here is why I
want to become a Pharmacist."

Malorie, Pharmacy Intern

Career possibilities like no other. At a company like no other.

As Walmart continues to offer the best possible service and products to our patients, we have also gained a reputation as being the Employer of Choice for Pharmacists. Whether it's in a Supercenter, Neighborhood Market, Central Fill Pharmacy, Home Delivery Pharmacy, or Specialty Pharmacy, there's a place with the right size, location, and opportunity for you.

Or choose to expand your role as a Pharmacy Clinical Services Manager (PCSM) and be a go-to resource for our team of pharmacists. You'll take part in everything from driving the delivery of clinical services and developing strategies for improving patient care, to providing expertise and support for pharmacists and technicians, while promoting company policies and driving business needs. It's a big role that comes with an even bigger potential for expanding your leadership skills and career possibilities.

There are a wealth of different paths your career can take within Walmart Pharmacies:

- Health and Wellness Operations
- Professional Relations
- Clinical Services
- Health & Wellness Corporate
- Innovations
- Quality Assurance and Compliance

Walmart's response to COVID-19

Walmart has been working around the clock to do our part to administer vaccines and offer education to millions of individuals across the country. At the heart of our efforts is an all-hands-on-deck approach in reaching all communities. In fact, eighty percent of the COVID-19 vaccines Walmart has administered have been in medically underserved communities.

As one of the world's largest retailers,

our reach and ability to follow through on our commitment to helping people remain unmatched.

This strength and potential for impact are behind you every step of the way:

- With fiscal year 2021 revenue of \$559 billion, Walmart employs over 2.2 million associates worldwide.
- Walmart has 10,500 retail units under 48 banners in 24 countries and eCommerce websites.
- Walmart operates over 4,000 pharmacy locations in the US and counting, including Walmart, Supercenters, and Neighborhood Markets.
- Walmart has made significant progress towards its sustainability goals to be powered by 100% renewable energy, create zero waste, and sell products that sustain people and the environment.
- With a long history of providing aid, Walmart has given billions in cash and in-kind contributions around the world. We also set up mobile pharmacy units to meet patient medication needs during natural disasters.
- Walmart has hired more than 206,000 veterans and promoted more than 30,000 to roles with higher pay and greater responsibility since launching its Veterans Welcome Home Commitment in May 2013.

Through superior care, clinical services, and comprehensive benefits, **Walmart is changing the industry for pharmacy professionals.**

Help us serve communities all over the country, one customer at a time.

"I am so honored to be a part of Walmart's response to supporting communities recovering from the COVID pandemic. I am truly amazed by our store teams and the level of care they provided! On a daily basis I would hear stories of our associates delivering world class care to their patients that inspired me."

Jason, Regional H&W Director

** Benefits are available for eligible associates.*
