**medme**

Unlock Your Pharmacy as a Healthcare Hub

Streamline workflows, expand clinical services, and enhance patient outcomes with MedMe

WHO WE ARE

MedMe is a cloud-based software platform for pharmacies to deliver clinical services at scale. We help pharmacists schedule, conduct, and follow up on consultations such as Immunizations, Test and Treat, and MTM.

MedMe is trusted by **4,000+ pharmacies** and has served **25M+ patients** across North America.

WHY CHOOSE MEDME?

For Patients

- ↓ Time spent filling out paper forms
- ↓ Wait time at pharmacy
- ↑ Engagement with digital presence
- ↑ Knowledge of pharmacy scope

For Pharmacists

- ↓ Admin time on documentation
- ↑ Capacity for appointments
- ↓ Number of phone calls
- ↑ Transparency on the workday

For Pharmacies

- Robust patient intake
- PDF generation
- Batch update and print
- Automated patient reminders (email/SMS)

WHAT WE OFFER

Appointment Scheduling

Plan your workday in advance with multi-calendars, block times, and other pharmacy-specific configurations.

Documentation

Generate service-specific clinical and consent documentation created automatically from patient intake, with the ability to update this en masse.

Patient Communications and Follow-Ups

Patients can express interest in other services offered (e.g. shingles/HPV vaccines, travel consultations, and smoking cessation).

SERVICE MODULES

Immunizations   Test and Treat   MTM   ...and more!
