

# Online Graduate Programs

Online graduate programs at the UF College of Pharmacy are among the largest and most successful in the world. Our award-winning programs are designed for working professionals everywhere. Online graduate courses include Master's degree programs in:

- Clinical Toxicology
- Forensic Science
- Individualized Medicine
- Pharmaceutical Chemistry
- Pharmaceutical Outcomes and Policy
- Pharmaceutics
- Clinical Pharmacogenomics and Precision Medicine

## **CONTINUING EDUCATION**

Our leadership and innovation extends to our Continuing Pharmacy Education programs. We translate leading-edge and specialized pharmacy topics into courses and certificate programs accredited by the Accreditation Council for Pharmacy Education.

We offer educational programs for relicensure in Florida as well as other programs available for a national audience. Examples include our Pharmacy-Based Test and Treat, Collaborative Practice Agreement, Ambulatory Care and Pharmacogenomics training certificate programs.

## **ADVANCE YOUR CAREER, YOUR WAY**

You can start with just one class to see our program in action and then choose from specialty graduate certificate and M.S. programs.

You'll learn from professional and academic experts. Our faculty includes full-time professors as well as adjunct professors currently working in the pharmaceutical industry, forensic laboratories, managed care, regulatory agencies and consulting settings.

### **WHY UF?**

The UF College of Pharmacy prides itself on a rich tradition of excellence in pharmacy education, research and service. Here are some reasons why we're the top pharmacy college in the nation:

- #1 ranked pharmacy college in Florida by U.S. News & World Report
- #1 ranked matching residency positions nationally by the American Society of Health-System Pharmacists
- Back-to-back recipient of the national Health Professions Higher Education Excellence in Diversity Award
