

Systematic Literature Reviews  
in minutes, not months

# Save lives by eliminating delays in research

Patients do not have time to wait for safe and efficacious pharmacotherapies. LRN by Ziplitics facilitates pharmaceutical research by swiftly identifying key literature across any field within minutes. LRN then expedites research by performing the data analysis, synthesizing its findings, and writing comprehensive reports such as literature reviews, equivalent to a pharmaceutical researcher.

**100X** Reduction of labor time & costs

**Highly Accurate** AI models with high inter-rater reliability, continuous monitoring

**Explainable AI**, complete transparency, end-to-end automation, and audit ready results
